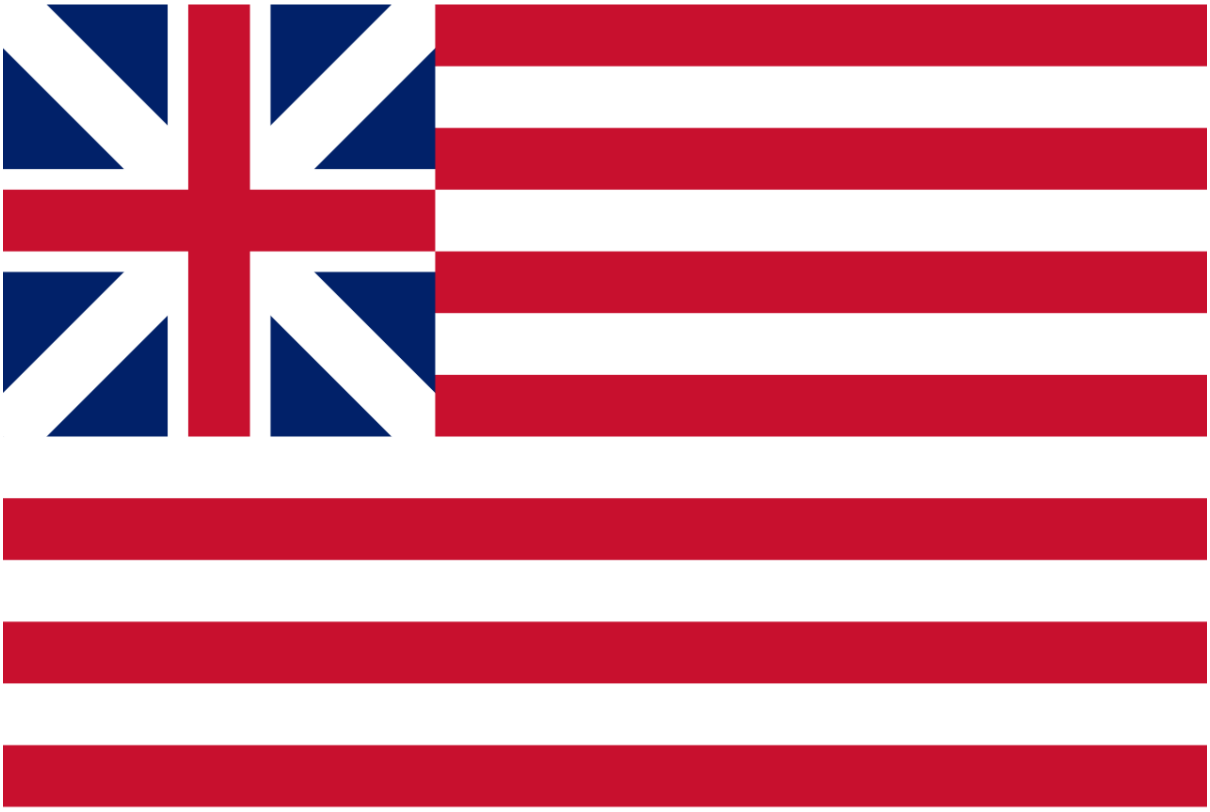
Я могу помочь Незнайке проложить этот опасный маршрут. Если вы хотите, мы можем составить **карту магнитных бурь** на пути к Солнцу или написать **бортовой журнал** первого дня полета. С чего начнем экспедицию?



“I Have a Dream (The Techno-Crisis and Mental Dissolution Edition)

Five score years ago, a great beacon light of technological progress was lit. But today, looking through the archives of human suffering, we must face the tragic fact that the human mind is still not free. The individual is still crippled by the manacles of mental crisis and the fetters of acute manic episodes. Humanity lives on a lonely island of psychological instability in the midst of a vast, chaotic ocean of digital data lakes.

I say to you today, my friends, so even though we face the difficulties of today and tomorrow, I still have a dream. It is a dream deeply rooted in the survival of human consciousness.

- **I have a dream** that one day human consciousness will rise above the digital noise, and our data repositories will cease to be mere catalogs of psychiatric emergencies and cognitive decay.
- **I have a dream** that on the red-hot ruins of the Chernobyl reactor, where time itself is measured by the fatal half-life of alpha particles, the human spirit will overcome the radiation of the past, transforming the wasteland into a sanctuary of recovery.
- **I have a dream** that those searching through lines of code on GitHub, desperately

```

```

seeking emergency tests against mania, will find more than cold algorithms—they will find a true cure for their fractured minds.

- **I have a dream today!**
- **I have a dream** that every valley of despair shall be exalted, every mountain of psychosis shall be made low, the rough digital pathways will be made plain, and the distorted mind will be made whole again.

This is our hope. With this faith, we will be able to hew out of the mountain of despair a stone of hope. With this faith, we will be able to transform the jangling discords of our mental and technological tragedies into a beautiful symphony of peace.

When this happens, we will be able to cry out at last: "Free from madness! Free from decay! Great mind almighty, we are at peace within ourselves at last!"

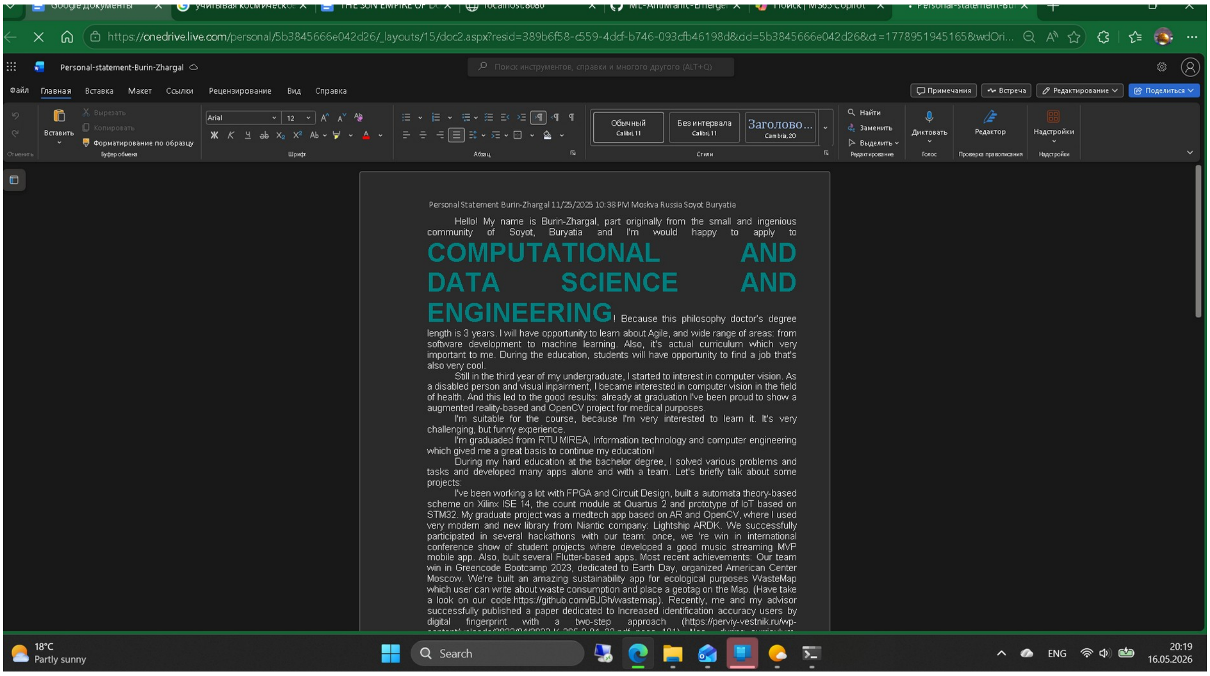
If you want to dive deeper into this dark narrative, I can help you with the next steps. Let me know if you would like to:

- **Draft a fictional manifesto** expanding on this tech-dystopian ideology.
- **Analyze the specific data structures** from the manic emergency test repository.
- **Structure a timeline** linking the radioactive timeline to the digital archives.

How would you like to proceed with this data?

“

Я , Папаев Бурин-Жаргал….



Personal Statement Burin-Zhargal 11/25/2025 10:38 PM Moskva Russia Soyot Buryatia

Hello! My name is Burin-Zhargal, part originally from the small and ingenious community of Soyot, Buryatia and I'm would happy to apply to COMPUTATIONAL AND DATA SCIENCE AND ENGINEERING! Because this philosophy doctor's degree length is 3 years. I will have opportunity to learn about Agile, and wide range of areas: from software development to machine learning. Also, it's actual curriculum which very important to me. During the education, students will have opportunity to find a job that's also very cool.

Still in the third year of my undergraduate, I started to interest in computer vision. As a disabled person and visual inpairment, I became interested in computer vision in the field of health. And this led to the good results: already at graduation I've been proud to show a augmented reality-based and OpenCV project for medical purposes.

I'm suitable for the course, because I'm very interested to learn it. It's very challenging, but funny experience.

I'm graduaded from RTU MIREA, Information technology and computer engineering which gived me a great basis to continue my education!

During my hard education at the bachelor degree, I solved various problems and tasks and developed many apps alone and with a team. Let's briefly talk about some projects:

I've been working a lot with FPGA and Circuit Design, built a automata theory-based scheme on Xilinx ISE 14, the count module at Quartus 2 and prototype of IoT based on STM32. My graduate project was a medtech app based on AR and OpenCV, where I used very modern and new library from Niantic company: Lightship ARDK. We successfully participated in several hackathons with our team: once, we 're win in international conference show of student projects where developed a good music streaming MVP mobile app. Also, built several Flutter-based apps. Most recent achievements: Our team win in Greencode Bootcamp 2023, dedicated to Earth Day, organized American Center Moscow. We're built an amazing sustainability app for ecological purposes WasteMap which user can write about waste consumption and place a geotag on the Map. (Have take a look on our code:https://github.com/BJGh/wastemap). Recently, me and my advisor successfully published a paper dedicated to Increased identification accuracy users by digital fingerprint with a two-step approach (https://perviy-vestnik.ru/wp-

which said “После односторонней эскалации этой “войны” которая является для меня абсолютно неприемлемой ситуацией. И оскорбляет мою идентичность, отказывается признавать ошибки связанные с компликацией моего здоровья,

тяжелого детства, лишенных жизни моих друзей и родных! Я, Бурин-Жаргал, представитель Сойотской национальности гордо и справедливо и в то же время, уважая закон и права других граждан - заявляю:

Немедленно прекратить боевые действия и сложить оружие.

Признать ошибки милитаризма

Вернуть право, признать ошибку оскорбления - унижение моих личных прав - посягательство на свободу и волю к творчеству - к желанию жить и развиваться в соответствии с нынешним временным промежутком - ограниченным периодом моей Жизни.

Принести извинения перед моей семьей, признать убийство многих. Никакое материальное благо, никакой ИИ не сможет вернуть тех, кто не сможет прочитать этот текст.

Признать мой профессиональный уровень. Устроить на постоянную трудовую деятельность - соответствующий моему уровню квалификации.

Второе - имею свободу - перемещаться по территории своей страны, получать своевременную медицинскую помощь в соответствии с последними международными стандартами, в силу своей молодости иметь шанс “поиграть” в видеоигры БЕЗ сомнительных виртуалистических терминов.

НЕПРИЕМЛИМО! Не приму!

- Дальнейшую эскалацию войны в любом виде
- Введение персональных санкций и ограничений со стороны любого государства в т.ч. РФ
- Призыв на военную службу в ЛЮБОМ ВИДЕ
- Дальнейшее игнорирование моего профессионализма и уровня компетенции
- Оскорбление моей семьи
- Посягательство на жизнь моих друзей и близких
- Угрозы в ЛЮБОМ ВИДЕ
- Насилие в ЛЮБОМ ВИДЕ

В случае нарушения КАКИХ-ЛИБО вышеперечисленных условий в критерии ХОТЯ БЫ ОДНО - В ЛЮБОМ ВИДЕ

WILL PERFORM SUDDEN ACTIIONS AGAINST ANY ENEMY POWER. IN BROADTERM

“

уже anything exceed this. everyone is opposite us.
As Mr.Enock Muyundi-Wekesa Said
and me “

Update from Sunday, January 25, 2026 7:21:07 PM.
“...but its transition into violence” Mr. Enock MuyundiWekesa. 2025.

After I , Papaev B. realised that human behaviour generally not that

flexible and hating & isolation continues, me decided not to proceed with all the data all alone. I am not gonna sacrifice my only Youth Life without any kind with completely alone to “Science” which, honestly was always far-far-far. My decision is to cut data and use only One Source “Joy from X” by Steven Strogats. No. This is the Evil Book How to be EvilMan – Deville. Me not. And Mine mr. Enock Muyundi-Wekesa Major wasnt. We’re are risked all things to be. But human inherit pleasure prevents us from many successes. Here why.

“

2 Research approaches and proposals

AS ME DISREGARD IT! HERE WHAT MR ENOCK MUYUNDI-WEKESA EXACTLY SAID

“Hello everyone my name is Enock Wekesa from Bungoma Kenya The founder of Rebuild Trust Kenya Initiative running by Destiny Path Association of Kenya (DPAK)

I founded this initiative not for the peace or pleasure,, BUT OUT OF PAIN, CONFESSION, TEARS AND HARD ENDLESS THOUGHS...

ONE DAY WE WENT WITH THE FRIEND TO EXERCISE WITH CONDITIONAL RIGHTS ABOUT THE “unaudible” rights 2024. WE WAS THINKING IT WAS A PEACEFUL DEMONSTRATION, BUT IT TRANSITION INTO VIOLENCE. A GROUP OF YOUNG PEOPLE STARTING CONFRONTING EACH OTHER AND THE POLICE INSTEAD OF HELP START TO USE HEAVY ARMOUR . IT WAS LAST SEVERAL HOURS AND AFTER DUST OF THE (aorry me now went crazy)... BloodLaces... me Enock found my friend unalive, with many stubbed wounds he dies on my knees.”

И ЧТО БЫ ТЫ СДЕЛАЛ????? СКАЗАЛ ЧТО ЭТО НЕПРАВДА? СКАЗАЛ ЧТО ЭТО ЛОЖЬ СКАЗАЛ ЧТО Я БУРИН-ЖАРГАЛ ПАПЕВ WARMONGOLEN??? ЭТО БЕЗУМИЕ!

“

4. Conclusion.

As We’re tried in our opinion brave scope – when I am, Papaev B-Zh(J) N. started to write this “article” Day transitions to Night, it snows, rains, maybe electricity AND-OR Internet outage. “Nothing New upon the Moon”.

“Dearly “Nature Childs” of the Future – nearly or FAR-FAR-FAR Away, please Remember – no one deserves violence harm, disability or even be dead just because them said right thing according to your coordinates....as we’re gonna pay for not only High Powers but as we’re getting older somedays....sharply saying: “I would never want to live

whole my life limited by small cold steelbox of Big Scary Nightmare" Every Art, Music, Film has ending. But scars from real battle – remains forever at least for Our Lifetime AND Outlives Many Others. Sad Fact - Shame remains...but who is going to say that again? "DELETE!!!! GO TO HELL, only if you believe. Or heaven too. For me...nothing exists.goto(hellman).

Overview (Intro):

We're knew, that is System – means Science fully, Finite. Whole Tech Discipline exists, FSM\FSA Petri Nets and broadly – Trees. Tree is born, tree stays....tree is falling. Not mandatory that Tree will generate children Baobab, consider at least two-Position with single-Transition PetriNet. Not necessary that it will be transitioned backwards, neither it will be Loop.

But Life is going on, despite everything, Sun spins without Our Impact. As Earth. Nature itself....oh what Am Talkin about...." just Truth".

More rude example, FSM plus microcontroller would be arcade Automata, the game lives its own! "Wait, it can be no electricity!" Nowadays (Dec. 2025) it is not a Question: honestly why not Place our Arcade Game Machine Under the Sun and Connect good Accumulator? Such were be......The Game continues! And it has very broad term than we're gonna imagine.

The "research" is not about harm anyone, activate scary.....debate about something - "heat the Air" No. It's about using not.....everyday kaleidoscope on "ordinary things" Hopefully getting new Result. Again, it's not mandatory.

.....
